

CLUVAIRE IS THE WAY TO DELIVER CLEAN AIR TO BANKS AND CREDIT UNIONS

Here's to Helping You Achieve Healthy Building Status

Cleaner Air For All

“And the single biggest structural change that we can make as a society is to do for indoor air quality what we’ve done for water quality. We need healthy buildings because we need healthy communities.”

-Ashish Jha, MD,

White House COVID-19 Response Coordinator

Safe Air System for Banks and Credit Unions

Improved Air Quality Our UVC active air disinfection devices utilize Philips UVC lamps to neutralize harmful pathogens and allergens in the air, creating a healthier environment for your clients and staff.

Compliance with ASHRAE Standard 241 By adhering to this esteemed industry standard, our devices ensure optimal indoor air quality and proper ventilation, making your branches a safe haven for customers to conduct their transactions with peace of mind.

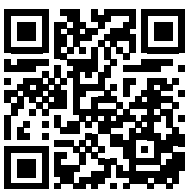

UL's Verification Our devices have earned UL's Verification of Ventilation and Filtration Certification, showcasing their reliability and effectiveness in enhancing indoor air quality, exceeding industry standards.

Patented Multi-Pass Chamber Our exclusive multi-pass chamber design ensures that air is effectively disinfected during each circulation, maximizing the elimination of contaminants.

Client Assurance Demonstrating your commitment to client well-being and safety by having our UVC air disinfection devices at every branch will enhance your brand reputation and encourage trust among clients.

Energy-Efficient Solutions Our devices are engineered to be energy-efficient, supporting your commitment to sustainability and responsible business practices.

Maintenance and Support We provide comprehensive maintenance support to ensure longevity and optimum performance of our devices, guaranteeing a seamless experience for your customers.
